A Reminder to Shovel Out Fire Hydrants

EVERY SECOND COUNTS IN AN EMERGENCY! For your protection, and that of your neighbors', the Water Utility is reminding customers of Waukesha's city ordinance 6.12(6) regarding snow surrounding fire hydrants.

All fire hydrants and sidewalks in front of your home or business should be cleared and kept cleared within 12 hours after the snow has stopped falling. If such snow is not removed within the time designated for snow removal, the City may clear the snow in accordance with sub. (2)(b) of this section and assess the applicable charge in the Cost Schedule for removal.

For more information, please visit the City's Code Book at www.waukesha-wi.gov or call the Fire Prevention Office at (262) 524-3648.
